

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0026] with the following amended paragraph:

[0026] Further, the main housing 10 further comprises a cylindrical lens housing 30 mounted with a camera lens 18 to be exposed at a transition portion between the side surface 10b and the bottom surface 10c, and a shutter key 19 neighboring the lens housing 30. The cylindrical lens housing 30 has a rotation axis which is parallel to and spaced a predetermined distance from a virtual plane on which the first and second key pads 12 and 13 linearly move. Further, the camera lens 18 is rotatably mounted between the side surface 10b and the bottom surface 10c.
